PROFESSIONAL EXPERIENCE

Lead Product Manager | The Hashgraph Group, Gurugram Dec 2025 – Present

- Portfolio ownership: Own strategy and end-to-end delivery for 7+ enterprise Web3/DLT products across digital identity, tokenisation, carbon markets, payments and traceability; lead 5 product owners from discovery through UAT, launch and hypercare.
- Flowgenix-AI: Cut carbon-reporting onboarding from 4–5 months to 1–2 days (~98% faster).
- EcoGuard: Drive an enterprise carbon marketplace on Hedera DLT and smart contracts covering the full carbon-credit lifecycle.
- Digital trust: Drive enterprise integrations using DIDs, Verifiable Credentials, ERC-1155, HCS and smart contracts.

Accenture Technology | Gurugram & Bengaluru, India Jul 2017 – Dec 2025

Product Owner / Functional Lead, Immersive Technology | Nov 2024 – Dec 2025

- Universal Wallet Infrastructure (NTT DOCOMO): Owned the product backlog for UWI, an Ethereum-based digital-trust platform co-developed by Accenture and NTT DOCOMO GLOBAL; defined user stories and acceptance criteria with engineering and stakeholders ahead of its January 2026 public launch.
- GenAI use cases: Defined GenAI use cases for automation, quality and knowledge management on myWizard; led a use case that auto-generates user stories and test cases from requirements.
- Automated reporting: Cut client manual tracking effort by 35% with automated reporting workflows.
- Prioritization & adoption: Prioritized backlogs by business value (+15% throughput); led GenAI training and change management across Agile teams.
- Solutioning enablement: Enabled enterprise solutioning and business development with tailored GTM collateral and industry solution narratives, including Metaverse and digital-twin use cases for NVIDIA-powered capabilities.

Project Manager, Blockchain Programs | Oct 2022 – Oct 2024

- Microsoft Azure Supply Chain: Led end-to-end delivery of one of the largest production-grade blockchain implementations, helping cut supply-chain costs by $50M.

- Team & portfolio: Managed 30+ member cross-functional Agile teams across concurrent programs for 12+ clients, owning sprints, capacity and client demos.
- Predictability: Planned 20+ sprints at 95% on-time delivery; shipped a multi-tier platform integration 2 weeks early with zero critical defects.
- Delivery models: Designed delivery models with data flows, process maps and mockups, cutting rework 35% and raising blockchain project ROI 10%; built a Value Realization Office framework.
- Pre-sales: Supported RFP responses and client visits with solution pitches and estimates, enabling account expansion.

Agile Scrum Master | Nov 2019 – Sep 2022

- Scrum at scale: Ran sprint planning, grooming, stand-ups, reviews and retrospectives for 40+ global team members across multiple projects, including shipping and 5G programs.
- Flow & risk: Improved delivery timelines through backlog discipline and capacity planning; removed impediments and kept mitigation plans ahead of risks.
- Blockchain delivery: Supported delivery across Ethereum, R3 Corda and Hyperledger for the practice's blockchain clients.

Business Analyst, Blockchain Solutioning | Jul 2017 – Oct 2019

- Client solutioning: Shaped solutions for Microsoft, Petronas, Google, Kuehne+Nagel, AB InBev, Walmart and GJEPC across supply chain, oil & gas, logistics and retail.
- Workshops: Ran 20+ Design Thinking workshops and 30+ ideation and tech-readiness assessments to prioritize use cases and build roadmaps.
- PoCs & accelerators: Built 10+ blockchain proofs of concept and an accelerator library, speeding delivery 20%.
- Analysis: Performed gap analysis and wrote requirement and training documentation for new systems.
